CENSUS OF IRELAND, 1871.

COUNTY OF GALWAY.

INTRODUCTORY NOTE.

It has been considered desirable that those of the public who might not require, or be disposed to purchase the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as in Ireland the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Galway; and purpose giving similar Tables from time to time, for each County, at such intervals as the progress of the work will permit. The counties are being published in alphabetical order, beginning with the Province of Leinster, followed by Munster, Ulster, and Connaught.

The Irish Tables are presented in as close conformity of frame and sequence with the corresponding Tables for England and Scotland, as the circumstances of each country will allow; but as information not collected in Great Britain—with reference to the Education and Religion of the People—is included among other matters, in the Returns for Ireland under the Act of Parliament; and as various statistics of local importance not required in the Returns for Great Britain have always been presented in the Irish Census Publications, or are now suggested by the advance of statistical science, such special matter will be found included occasionally in the same Tables with statistics common to all parts of the United Kingdom; but more generally given in distinct Tables, as having reference to wholly independent heads of information.

Thus in Table I. of the following series, there will be found for Ireland, over and above the matter in the English Return, columns for the subdivision of land under tillage, pasture, plantation, and bog and waste; a column for out-offices and farm-steadings, supplemental to the English column for houses; also a column for the average number of persons to an acre of arable and pasture land, supplemental to the English column for the number of persons to the acre generally; on the other hand, the statistics appertaining to Religion and Education, as also those of Emigration, being given exclusively for Ireland, are in most instances presented apart, as from Tables XXXI. to XLI., inclusive.

The County of Galway* comprises 17 Baronies—the barony being the Territorial Division in Ireland most nearly analogous to the English "Hundred," and recognised as such by the Irish Census Report for 1821, page x.

There are in the County 35 Petty Sessions Districts, and 1 part of a Petty Sessions District. Quarter Sessions are held in Ballinasloe, Clifden, Galway, Gort, Loughrea, Oughterard, Portumna, and Tuam.

* The County of Galway, and the Borough of Galway, return *four* Members to Parliament—*two* for the County, and *two* for the Borough.

Pnnted image digitised by the University of Southampton Library Digitisation Unit

The County includes 1 Parliamentary Borough—Galway—and 4 Townships—Ballinasloe, Galway, Loughrea, and Tuam.

There are 5 Poor Law Unions *wholly* within the County—Galway, Loughrea, Mount Bellew, Portumna, and Tuam—and *parts* of 8, viz.:—Ballinasloe, Ballinrobe, Clifden, Glennamaddy, Gort, Oughterard, Roscommon, and Scarriff, the remaining portions of which will be found in the adjoining counties.

For the purposes of registration of births, deaths, and marriages, the Poor Law Union is termed a "Superintendent Registrar's District," and each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the poor under the Poor Law Acts. The Registrar's District, save in a few instances, is identical with the Dispensary District. Each Dispensary District is composed of a certain number of Poor Law Electoral Divisions.

The County contains 110 civil Parishes and 10 parts of Parishes, and 4,237 Townlands.

(a) The remainder of the parish of Dunmore is in the barony of Dunmore, see p. 55, the entire parish contains 8,241 persons.
(b) The population of this townland is given as furnished by the enumerator at the date of taking the Census. Information, however, supplied subsequently to the compilation of the tables tends to the belief that the original returns may have been to some extent inaccurate. If any change in the figures is found necessary the revised numbers will be given in a note to Table I of the Summary of the province of Connaught.
(c) See note (b).
(d) This amount includes the valuation of a portion of the town of Dunmore.
(e) The remainder of the town of Dunmore is in the parish of Dunmore, barony of Dunmore, see p. 55, the entire town contains 240 persons, and has an estimated area of 51 acres. This portion stands on the townland of Gaterstreet.

(*a*) The remainder of the town of Dunmore is in the parish of Danmore, barony of Ballymoe, see p 22, the entire town contains 640 persons, and has an estimated area of 51 acres. This portion stands on the townlands of Abbeyland, North, Abbeyland, South and Dunmore

(*b*) The decrease in the population of this townland is attributed by the enumerator to removals to other localities, in consequence of the landlord wishing to enlarge his demesne.

(a) The civic districts comprise all municipal boroughs and townships also towns of 2,000 inhabitants and upwards.
(b) These families reside in a house formerly occupied as a military barrack.

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st, its extent, as shown by the number of rooms; 2nd, its quality, as shown by the number of its windows; and 3rd, its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, *i. e.*, their actual state.

Four classes have been adopted, and the result is that in the lowest of the four classes are comprised houses having only one room and window; in the third a better description of house, varying from two to four rooms and windows. In the second what might be considered a good farm house having from five to nine rooms and windows; and in the first class all houses of a better description than the preceding. The fourth class has, for the first time, on this occasion been divided so as to exhibit the number of mud cabins (a description of dwelling which is rapidly disappearing from the country), as distinguished from small cottages built of brick or stone.

The accommodation which the houses afford has also been arranged under four classes, viz.:—

First Class accommodation consisting of 1st class houses, occupied by one family.

Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.

Third Class accommodation comprising 3rd class houses, with one family each, or 2nd class houses, with two or three families, or 1st class houses occupied by four or five families.

Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses inhabited by six or more families.

* The designation "Primary" has been applied in Irish Census Publications, since 1841, to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Superior," upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting.

† These form the second group in the classification of the National Board, the Model Schools being the first. See Rules of the Commissioners of National Education, p. 10.

CENSUS OF IRELAND, 1871.

COUNTY OF LEITRIM.

INTRODUCTORY NOTE.

It has been considered desirable that those of the public who might not require, or be disposed to purchase the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as in Ireland the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Leitrim; and purpose giving similar Tables from time to time, for each County, at such intervals as the progress of the work will permit. The counties are being published in alphabetical order, beginning with the Province of Leinster, followed by Munster, Ulster, and Connaught.

The Irish Tables are presented in as close conformity of frame and sequence with the corresponding Tables for England and Scotland, as the circumstances of each country will allow; but as information not collected in Great Britain—with reference to the Education and Religion of the People—is included among other matters, in the Returns for Ireland under the Act of Parliament; and as various statistics of local importance not required in the Returns for Great Britain have always been presented in the Irish Census Publications, or are now suggested by the advance of statistical science; such special matter will be found included occasionally in the same Tables with statistics common to all parts of the United Kingdom; but more generally given in distinct Tables, as having reference to wholly independent heads of information.

Thus in Table I. of the following series, there will be found for Ireland, over and above the matter in the English Return, columns for the subdivision of land under tillage, pasture, plantation, and bog and waste; a column for out-offices and farm-steadings, supplemental to the English column for houses; also a column for the average number of persons to an acre of arable and pasture land, supplemental to the English column for the number of persons to the acre generally; on the other hand, the statistics appertaining to Religion and Education, as also those of Emigration, being given exclusively for Ireland, are in most instances presented apart, as from Tables XXXI. to XLI., inclusive.

The County of Leitrim* comprises 5 Baronies—the barony being the Territorial Division in Ireland most nearly analogous to the English "Hundred," and recognised as such by the Irish Census Report for 1821, page x.

There are in the County 13 Petty Sessions Districts and part of 1 Petty Sessions District. Quarter Sessions are held in Ballinamore, Carrick-on-Shannon, and Manor Hamilton.

* The County returns *two* Members to Parliament.

There are 2 Poor Law Unions *wholly* within the County—Manor Hamilton and Mohill—and *parts* of 3, viz. :—Ballyshannon, Bawnboy, and Carrick-on-Shannon, the remaining portions of which will be found in the adjoining counties.

For the purposes of registration of births, deaths, and marriages, the Poor Law Union is termed a "Superintendent Registrar's District," and each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the poor under the Poor Law Acts. The Registrar's District, save in a few instances, is identical with the Dispensary District. Each Dispensary District is composed of a certain number of Poor Law Electoral Divisions.

The County contains 14 civil Parishes and 3 parts of Parishes, and 1,489 Townlands.

(a) The civic districts comprise all municipal boroughs, townships, and towns of 2,000 inhabitants and upwards, of which, however, there are not any in the county of Leitrim.

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st, its extent, as shown by the number of rooms; 2nd, its quality, as shown by the number of its windows; and 3rd its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, i.e., their actual state.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses having only one room and window, in the third a better description of house, varying from two to four rooms and windows, in the second, what might be considered a good farm house, having from five to nine rooms and windows, and in the first class all houses of a better description than the preceding. The fourth class has, for the first time, on this occasion been divided so as to exhibit the number of mud cabins (a description of dwelling which is rapidly disappearing from the country), as distinguished from small cottages built of brick or stone.

The accommodation which the houses afford has also been arranged under four classes, viz:—

First Class accommodation consisting of 1st class houses, occupied by one family.
Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.
Third Class accommodation comprising 3rd class houses, with one family each, or 2nd class houses, with two or three families, or 1st class houses occupied by four or five families.
Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses inhabited by SIX or more families.

* The designation "Primary" has been applied in Irish Census Publications, since 1841, to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Superior," upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting.

† These form the second group in the classification of the National Board; the Model Schools being the first, of which there are none in the county of Leitrim. See Rules of the Commissioners of National Education, p. 10.

CENSUS OF IRELAND, 1871.

COUNTY OF MAYO.

INTRODUCTORY NOTE.

It has been considered desirable that those of the public who might not require, or be disposed to purchase the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as in Ireland the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract; the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Mayo; and purpose giving similar Tables from time to time, for each County, at such intervals as the progress of the work will permit. The counties are being published in alphabetical order, beginning with the Province of Leinster, followed by Munster, Ulster, and Connaught.

The Irish Tables are presented in as close conformity of frame and sequence with the corresponding Tables for England and Scotland, as the circumstances of each country will allow; but as information not collected in Great Britain—with reference to the Education and Religion of the People—is included among other matters, in the Returns for Ireland under the Act of Parliament; and as various statistics of local importance not required in the Returns for Great Britain have always been presented in the Irish Census Publications, or are now suggested by the advance of statistical science; such special matter will be found included occasionally in the same Tables with statistics common to all parts of the United Kingdom; but more generally given in distinct Tables, as having reference to wholly independent heads of information.

Thus in Table I. of the following series, there will be found for Ireland, over and above the matter in the English Return, columns for the subdivision of land under tillage, pasture, plantation, and bog and waste; a column for out-offices and farm-steadings, supplemental to the English column for houses; also a column for the average number of persons to an acre of arable and pasture land, supplemental to the English column for the number of persons to the acre generally; on the other hand, the statistics appertaining to Religion and Education, as also those of Emigration, being given exclusively for Ireland, are in most instances presented apart, as from Tables XXXI. to XLI., inclusive.

The County of Mayo* comprises 9 Baronies—the Barony being the Territorial Division in Ireland most nearly analogous to the English "Hundred," and recognised as such by the Irish Census Report for 1821, page x.

There are in the County 22 Petty Sessions Districts, and 2 parts of Petty Sessions Districts. Quarter Sessions are held in Ballina, Ballinrobe, Belmullet, Castlebar, Swineford, and Westport.

* The County returns *two* Members to Parliament.

Printed image digitised by the University of Southampton Library Digitisation Unit

The County (which has no Parliamentary Borough) includes 3 Townships—Ballina, Castlebar, and Westport—and 1 Town—Ballinrobe, without local government.

There are 6 Poor Law Unions *wholly* within the County—Belmullet, Castlebar, Claremorris, Killala, Newport, and Westport—and *parts* of 6, viz.:—Ballina, Ballinrobe, Castlereagh, Clifden, Oughterard, and Swineford, the remaining portions of which will be found in the adjoining counties.

For the purposes of registration of births, deaths, and marriages, the Poor Law Union is termed a "Superintendent Registrar's District," and each Union or Superintendent Registrar's District is divided into Dispensary Districts for the medical relief of the poor under the Poor Law Acts. The Registrar's District, save in a few instances, is identical with the Dispensary District. Each Dispensary District is composed of a certain number of Poor Law Electoral Divisions.

The County contains 66 civil Parishes and 7 parts of Parishes, and 3,202 Townlands.

(a) The civic districts comprise all municipal boroughs, townships, and towns of 2,000 inhabitants and upwards.

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st, its extent, as shown by the number of rooms; 2nd, its quality, as shown by the number of its windows; and 3rd, its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, i.e., their actual state.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses having only one room and window; in the third a better description of house, varying from two to four rooms and windows; in the second, what might be considered a good farm house, having from five to nine rooms and windows; and in the first class all houses of a better description than the preceding. The fourth class has, for the first time, on this occasion been divided so as to exhibit the number of mud cabins (a description of dwelling which is rapidly disappearing from the country), as distinguished from small cottages built of brick or stone.

The accommodation which the houses afford has also been arranged under four classes, viz.—

First Class accommodation consisting of 1st class houses, occupied by one family.

Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.

Third Class accommodation comprising 3rd class houses, with one family each, or 2nd class houses, with two or three families, or 1st class houses occupied by four or five families.

Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses inhabited by six or more families.

NOTE.—The number of persons referred to a particular occupation, profession, or rank, must not be taken as intended to represent the actual total of persons so circumstanced in the County. An individual having more occupations than one, or an occupation distinct from his profession, or income distinct from both, will often, either through inadvertence or of preference, return himself under one head only of occupation or condition. Thus, a person who may be a Clergyman and Professor, or Barrister and Land Agent, or Judge and Land Owner, will very generally be found returned in but one of these characters.

(a) In this class, Order and Sub-Order, are included all persons, *aged 15 years and upwards,* returned as "Scholar" or "Student."

(b) Exclusive of Children under 15 years of age following no occupation, and of Wives having no stated occupation.

* The designation "Primary" has been applied in Irish Census Publications, since 1841, to schools where the instruction is exclusively English; while those schools in which a foreign language is taught have been classed as "Superior," upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting

† These form the second group in the classification of the National Board; the Model Schools being the first, of which there are none in the county of Mayo See Rules of the Commissioners of National Education, p 10

CENSUS OF IRELAND, 1871.

COUNTY OF ROSCOMMON.

INTRODUCTORY NOTE.

It has been considered desirable that those of the public who might not require, or be disposed to purchase the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as in Ireland the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Roscommon; and purpose giving similar Tables from time to time, for each County, at such intervals as the progress of the work will permit. The counties are being published in alphabetical order, beginning with the Province of Leinster, followed by Munster, Ulster, and Connaught.

The Irish Tables are presented in as close conformity of frame and sequence with the corresponding Tables for England and Scotland, as the circumstances of each country will allow; but as information not collected in Great Britain—with reference to the Education and Religion of the People—is included among other matters, in the Returns for Ireland under the Act of Parliament; and as various statistics of local importance not required in the Returns for Great Britain have always been presented in the Irish Census Publications, or are now suggested by the advance of statistical science; such special matter will be found included occasionally in the same Tables with statistics common to all parts of the United Kingdom; but more generally given in distinct Tables, as having reference to wholly independent heads of information.

Thus in Table I. of the following series, there will be found for Ireland, over and above the matter in the English Return, columns for the subdivision of land under tillage, pasture, plantation, and bog and waste; a column for out-offices and farm-steadings, supplemental to the English column for houses; also a column for the average number of persons to an acre of arable and pasture land, supplemental to the English column for the number of persons to the acre generally; on the other hand, the statistics appertaining to Religion and Education, as also those of Emigration, being given exclusively for Ireland, are in most instances presented apart, as from Tables XXXI. to XLI., inclusive.

The County of Roscommon* comprises 9 Baronies—the barony being the Territorial Division in Ireland most nearly analogous to the English "Hundred," and recognised as such by the Irish Census Report for 1821, page x.

There are in the County 19 Petty Sessions Districts and 4 parts of Petty Sessions Districts. Quarter Sessions are held in Athlone, Boyle, Castlereagh, and Strokestown.

* The County returns *two* Members to Parliament.

rinted image digitised by the University of Southampton Library Digitisation Unit

The County includes 2 Townships—Boyle and Roscommon—and parts of 2 others—Athlone and Ballinasloe.

There is 1 Poor Law Union *wholly* within the County—Strokestown—and *parts* of 8, viz.:—Athlone, Ballinasloe, Ballinrobe, Boyle, Carrick-on-Shannon, Castlereagh, Glennamaddy, Roscommon, and Swineford, the remaining portions of which will be found in the adjoining counties.

For the purposes of registration of births, deaths, and marriages, the Poor Law Union is termed a "Superintendent Registrar's District," and each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the poor under the Poor Law Acts. The Registrar's District, save in a few instances, is identical with the Dispensary District. Each Dispensary District is composed of a certain number of Poor Law Electoral Divisions.

The County contains 53 civil Parishes and 7 parts of Parishes, and 1,995 Townlands.

NOTE.—The boundaries of the Parliamentary Borough and Township of Athlone are identical, the remainder is in the county of Westmeath. This portion, the area of which is exclusive of the extent under the River Shannon, comprises St Peter's Ward, and is situate in the Parish of St. Peter.

The Houses and Population cannot be given for 1861 for this portion of the Borough, as the particulars were then published only for the *entire* Borough, which at that period contained 1,060 houses and 6,227 persons. The number of Electors given is for the entire Borough.

The Areas given for the Townships and Towns are estimated. The numbers given for 1861 opposite the Townships represent the Houses and Population for the *Towns proper*, while those for 1871 are for the *Townships*, which comprise, in each case, a rural district surrounding the Town.

(a) Of whom 3,848 are for the county.
(b) Of whom 2 are for the county.
(c) The remainder is in the county of Galway.

(a) Hill Street not containing 20 inhabited houses, its population has, as in 1851, been included with that of the townlands upon which it stood. The remainder of the town, in 1851, was in the barony of Roscommon, parish of Anghrim, see p. 465.
(b) See note (d)
(c) This amount includes the valuation of Roosky town
(d) The town of Roosky stands on the townlands of the same name, its estimated area is 10 acres. The portion which formerly belonged to the parish of Mohill, barony of Mohill, county of Leitrim, is now extinct.
(e) See note (b), p 442
(f) This amount includes the valuation of a portion of Lanesborough town.

(a) See NOTE at foot of p. 472

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described.—

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st, its extent, as shown by the number of rooms; 2nd, its quality, as shown by the number of its windows; and 3rd, its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, i.e., their actual state.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses having only one room and window, in the third a better description of house, varying from two to four rooms and windows, in the second, what might be considered a good farm house having from five to nine rooms and windows, and in the first class all houses of a better description than the preceding. The fourth class has, for the first time, on this occasion been divided so as to exhibit the number of mud cabins (a description of dwelling which is rapidly disappearing from the country), as distinguished from small cottages built of brick or stone.

The accommodation which the houses afford has also been arranged under four classes, viz —

First Class accommodation consisting of 1st class houses, occupied by one family;
Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.
Third Class accommodation comprising 3rd class houses, with one family each, or 2nd class houses, with two or three families, or 1st class houses occupied by four or five families.
Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses inhabited by six or more families.

NOTE.—The number of persons referred to a particular occupation, profession, or rank, must not be taken as intended to represent the actual total of persons so circumstanced in the county. An individual having more occupations than one, or an occupation distinct from his profession, or income distinct from both, will often, either through inadvertence or of preference, return himself under one head only of occupation or condition. Thus, a person who may be a Clergyman and Professor, or Barrister and Land Agent, or Judge and Land Owner, will very generally be found returned in but one of these characters.

(a) In this Class, Order and Sub-Order, are included all persons, *aged 15 years and upwards,* returned as "Scholar" or "Student."

(b) Exclusive of Children under 15 years of age following no occupation, and of Wives having no stated occupation.

* The designation "Primary" has been applied in Irish Census Publications, since 1841, to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Superior," upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting

† These form the second group in the classification of the National Board; the Model Schools being the first, of which there are none in the county of Roscommon. See Rules of the Commissioners of National Education, p. 10

CENSUS OF IRELAND, 1871.

COUNTY OF SLIGO.

INTRODUCTORY NOTE.

It has been considered desirable that those of the public who might not require, or be disposed to purchase the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as in Ireland the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Sligo.

The Irish Tables are presented in as close conformity of frame and sequence with the corresponding Tables for England and Scotland, as the circumstances of each country will allow; but as information not collected in Great Britain—with reference to the Education and Religion of the People—is included among other matters, in the Returns for Ireland under the Act of Parliament; and as various statistics of local importance not required in the Returns for Great Britain have always been presented in the Irish Census Publications, or are now suggested by the advance of statistical science, such special matter will be found included occasionally in the same Tables with statistics common to all parts of the United Kingdom; but more generally given in distinct Tables, as having reference to wholly independent heads of information.

Thus in Table I. of the following series, there will be found for Ireland, over and above the matter in the English Return, columns for the subdivision of land under tillage, pasture, plantation, and bog and waste; a column for out-offices and farm-steadings, supplemental to the English column for houses; also a column for the average number of persons to an acre of arable and pasture land, supplemental to the English column for the number of persons to the acre generally; on the other hand, the statistics appertaining to Religion and Education, as also those of Emigration, being given exclusively for Ireland, are in most instances presented apart, as from Tables XXXI. to XLI., inclusive.

The County of Sligo* comprises 6 Baronies—the barony being the Territorial Division in Ireland most nearly analogous to the English "Hundred," and recognised as such by the Irish Census Report for 1821, page x.

There are in the County 14 Petty Sessions Districts, and parts of 3 Petty Sessions Districts. Quarter Sessions are held in Ballymote, Easky, and Sligo.

* The County returns *two* Members to Parliament.

Printed image digitised by the University of Southampton Library Digitisation Unit

The County (which has no Parliamentary Borough) includes 1 Municipal Borough—Sligo, and part of 1 Township—Ballina.

There are 3 Poor Law Unions *wholly* within the County—Dromore West, Sligo, and Tobercurry—and *parts* of 2, viz.:—Ballina and Boyle, the remaining portions of which will be found in the adjoining counties.

For the purposes of registration of births, deaths, and marriages, the Poor Law Union is termed a "Superintendent Registrar's District," and each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the poor under the Poor Law Acts. The Registrar's District, save in a few instances, is identical with the Dispensary District. Each Dispensary District is composed of a certain number of Poor Law Electoral Divisions.

The County contains 37 civil Parishes and 4 parts of Parishes, and 1,292 Townlands.

(a) The remainder of Sligo Electoral Division is in Sligo, No. 2 Registrar's District. As the Act for the Registration of Births and Deaths (26 Vic., cap. 11) by which the Registrars' Districts were defined, did not come into operation until 1864, it is not now found practicable to give the number of houses and population in 1841, 1851, and 1861, for each of the Districts into which the Electoral Division of Sligo has been divided for registration purposes. The Electoral Division of Sligo contained 2,143 houses in 1851, and 12,678 persons,—5,877 males and 6,801 females.

(a) The civic districts comprise all municipal boroughs, townships, and towns of 2,000 inhabitants and upwards.

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described.—

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st, its extent, as shown by the number of rooms; 2nd, its quality, as shown by the number of its windows; and 3rd, its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, *i.e.*, their actual state

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses having only one room and window; in the third a better description of house, varying from two to four rooms and windows; in the second, what might be considered a good farm house, having from five to nine rooms and windows; and in the first class all houses of a better description than the preceding. The fourth class has, for the first time, on this occasion been divided so as to exhibit the number of mud cabins (a description of dwelling which is rapidly disappearing from the country), as distinguished from small cottages built of brick or stone

The accommodation which the houses afford has also been arranged under four classes, viz:—

First Class accommodation consisting of 1st class houses, occupied by one family

Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.

Third Class accommodation comprising 3rd class houses, with one family each, or 2nd class houses, with two or three families, or 1st class houses occupied by four or five families

Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses inhabited by six or more families.

NOTE.—The number of persons returned to a particular occupation, profession, or rank, must not be taken as intended to represent the actual total of persons in circumstances in the county. An individual having more occupations than one, or an occupation distinct from his profession, or income distinct from both will often, either through inadvertence or of preference, return himself under one head only of occupation or condition. Thus, a person who may be a Clergyman and Professor, or Barrister and Land Agent, or Judge and Land Owner, will very generally be found returned in but one of these characters.

(*a*) In this Class, Order and Sub-Order, are included all persons, *aged 15 years and upwards,* returned as "Scholar" or "Student."

(*b*) Exclusive of Children under 15 years of age following no occupation, and of Wives having no stated occupation.

* The designation "Primary" has been applied in Irish Census Publications, since 1841, to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Superior," upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting.

† These form the second group in the classification of the National Board; the Model Schools being the first. See Rules of the Commissioners of National Education, p. 10.

NOTE.—The Census of 1821 is the first that affords a means of comparison with those of subsequent decades.
The decrease in the population of 1871 is chiefly attributable to emigration, see Table XLI., p. 685.
The Navy and Military serving in Ireland are included in the Population Tables in 1861 and 1871, but not in previous Censuses. The number in the province of Connaught in 1861 was 863, and 1,468 in 1871.

(a) The civic districts comprise all municipal boroughs, townships, and towns of 2,000 inhabitants and upwards.

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—
The value or condition of a house, as to its quality, may be considered to depend mainly on—
1st, its extent, as shown by the number of rooms; 2nd, its quality, as shown by the number of its windows; and 3rd its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, i.e., their actual state.
Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses having only one room and window; in the third a better description of house, varying from two to four rooms and windows; in the second, what might be considered a good farm house, having from five to nine rooms and windows; and in the first class all houses of a better description than the preceding. The fourth class has, for the first time, on this occasion been divided so as to exhibit the number of mud cabins (a description of dwelling which is rapidly disappearing from the country), as distinguished from small cottages built of brick or stone.
The accommodation which the houses afford has also been arranged under four classes, viz.:—
First Class accommodation consisting of 1st class houses, occupied by one family.
Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.
Third Class accommodation comprising 3rd class houses, with one family each, or 2nd class houses, with two or three families, or 1st class houses occupied by four or five families.
Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses inhabited by six or more families.

NOTE.—The number of persons referred to a particular occupation, profession, or rank, must not be taken as intended to represent the actual total of persons so circumstanced in the Province. An individual having more occupations than one, or an occupation distinct from his profession, or income distinct from both, will often, either through inadvertence or of preference, return himself under one head only of occupation or condition. Thus, a person who may be a Clergyman and Professor, or Barrister and Land Agent, or Judge and Land Owner, will very generally be found returned in but one of these characters.

(a) In this class, Order and Sub-Order, are included all persons, *aged 15 years and upwards,* returned as "Scholar" or "Student."

(b) Exclusive of Children under 15 years of age following no occupation, and of Wives having no stated occupation.

NOTE.—Sligo is a municipal borough, under a Mayor and Town Council. Athlone, Ballina, Ballinasloe, Boyle, Castlebar, Loughrea, Roscommon, Tuam, and Westport are townships under the provisions of the Act 17 & 18 Vic., c 103. Galway is a township under a special Act. The remaining 2 towns have no local government. The parliamentary and township boundaries are identical in the case of Athlone.

(a) The remainder of the parliamentary borough and township of Athlone is in the county of Westmeath, province of Leinster.

* The designation "Primary" has been applied in Irish Census Publications, since 1841, to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Superior," upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting.

† These form the second group in the classification of the National Board, the Model Schools being the first. See Rules of the Commissioners of National Education, p. 10.

INDEX TO TOWNLANDS AND TOWNS.

NOTE.—The County in which each Townland or Town is situated may be determined by comparing the number of the page on which it appears with the numbers of the pages occupied by each County—thus the Townland of Abbeycartron, which is to be found on page 467, is in the County of Roscommon, as that County occupies pp. 419 to 526.

The number *prefixed* to each Townland denotes the number of the Electoral Division in which it is situated, as given in the Alphabetical List of Electoral Divisions commencing on p. 695; thus the Townland of Abbeylands having 389 prefixed, shows that it is situated in the Electoral Division of Killala, and Poor Law Union of Killala. See p. 697.

Galway County occupies pp. 1–198; *Leitrim*, 199–272; *Mayo*, 273–418, *Roscommon*, 419–526; *Sligo*, 527–608.

NOTE.—The Census of 1821 is the first that affords a means of comparison with those of subsequent decades.
The decrease in the population of 1871 is chiefly attributable to emigration. See Table XLI., p. 93.
The Navy and Military serving in Ireland are included in the Population Tables in 1861 and 1871, but not in previous Censuses. The number in 1861 was 27,284, and 23,030 in 1871.

NOTE.—The Districts named in this Table are divided by Provincial boundaries, and consequently do not appear in their entirety in the County or Provincial publications. The District of Arvagh extends into the counties of Cavan (Province of Ulster) and Longford (Province of Leinster), Kiltyclogher into Fermanagh (Province of Ulster) and Leitrim (Province of Connaught), Kingscourt into Cavan (Province of Ulster) and Meath (Province of Leinster), and Moneygall, Parsonstown, and Roscrea, into Tipperary (Province of Munster) and King's County (Province of Leinster).

There are 662 Petty Sessions Districts in Ireland.

TABLE V.—AREA, HOUSES, and POPULATION in 1861 and 1871 of the PARLIAMENTARY BOROUGH and TOWNSHIP of ATHLONE, together with the Number of ELECTORS in the BOROUGH, on the night of 2nd April, 1871.

The Plan of Classification in the following Table (VIII) is the same as that adopted in former Censuses, and may be thus described:—

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st, its extent, as shown by the number of rooms; 2nd, its quality, as shown by the number of its windows; and 3rd its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements i.e., their actual state.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses having only one room and window; in the third a better description of house, varying from two to four rooms and windows; in the second, what might be considered a good farm house, having from five to nine rooms and windows; and in the first class all houses of a better description than the preceding. The fourth class has, for the first time, on this occasion been divided so as to exhibit the number of mud cabins (a description of dwelling which is rapidly disappearing from the country), as distinguished from small cottages built of brick or stone.

The accommodation which the houses afford has also been arranged under four classes, viz.:—

First Class accommodation consisting of 1st class houses, occupied by one family.
Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.
Third Class accommodation comprising 3rd class houses, with one family each, or 2nd class houses with two or three families, or 1st class houses occupied by four or five families.
Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses inhabited by six or more families.

NOTE.—The number of persons referred to a particular occupation, profession, or rank, must not be taken as intended to represent the actual total of persons so circumstanced in the County. An individual having more occupations than one, or an occupation distinct from his profession, or income distinct from both, will often, either through inadvertence or of preference return himself under one head only of occupation or condition. Thus, a person who may be a Clergyman and Professor, or Barrister and Land Agent, or Judge and Land Owner, will very generally be found returned in but one of these characters

(a) In this class, Order and Sub-Order, are included all persons, *aged 15 years and upwards*, returned as "Scholar" or "Student."

(b) Exclusive of Children under 15 years of age following no occupation, and of Wives having no stated occupation.

* The designation "Primary" has been applied in Irish Census Publications, since 1841, to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Superior," upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting.

† These form the second group in the classification of the National Board, the Model Schools being the first. See Rules of the Commissioners of National Education, p. 10.

(a) The Sessions—Third, 1870–71—of the "Queen's Colleges" having closed upon 10th June, the Students were not in attendance during the week ended 17th June, for which the returns should have been made. The numbers in attendance during the Sessions were—

"Cork College," 247, "Non-resident," viz :—88 Roman Catholics, 141 Episcopalians; 18 Presbyterians.
"Galway " " 124, " " 63 " 34 " 27 "
"Belfast " " 271. " " 12 " 74 " 235 "

The Session of the "Theological College of the General Assembly," Belfast, closed upon 12th April, 1871; the Students then attending were 96 Presbyterians, "Resident."

The Session, 1870–71, of the Magee College Londonderry, closed upon 18th April, 1871, the number of Students who attended during the Session was 47 Presbyterians, "Non-resident." Notwithstanding that the Educational Returns were intended for the "week ended 17th June, 1871," the Students in attendance at the close of the several "Sessions" of these Colleges have been included in the foregoing Tables.
